SIBAM SASMAL

Full Stack Developer

shivamsasmal7@gmail.com | +91 82980 06402 | Jamshedpur, Jharkhand
Portfolio | GitHub: github.com/sasmalshivam | DermaSense (live)

SUMMARY

Computer Science undergraduate (B.Tech, graduating 2027) and full-stack developer who ships end-to-end web products in Python/Django, JavaScript/React, and Java, with hands-on experience in deep learning and computer vision. Winner and finalist at national-level hackathons, with a track record of building working products under tight deadlines, learning unfamiliar APIs and systems quickly, and using AI tooling to move faster while reviewing outputs critically. Seeking to build production software at Stripe.

EDUCATION

B.Tech, Computer Science and Engineering, *NIST University* 09/2023 – 04/2027 | Berhampur, Odisha

Intermediate, Science, *S.D.S.M School For Excellence* 06/2020 – 05/2022 | Jamshedpur

Matriculation, *S.D.S.M School For Excellence* 06/2019 – 04/2020 | Jamshedpur

SKILLS

Languages: Python | Java | JavaScript (ES6+) | C

Backend and APIs: Django | Flask | RESTful APIs | JWT Authentication | third-party API integration (NASA)

Frontend: React.js | HTML5 | CSS3 | Tailwind CSS | Progressive Web Apps

AI / ML: Deep learning | Computer vision | Image classification | Recommendation systems

PROJECTS

DermaSense, *HealthNautix* Live demo 06/2025 – 11/2025

- Built and deployed an image-based skin disease detector using deep learning, making dermatological guidance more accessible.
- Promotes proactive healthcare through data-driven insights; shipped as a live web application.

Cosmic Watch, *IIT Bhubaneswar* 02/2026 – 03/2026

- Developed a dashboard on the NASA API to detect and track upcoming asteroids, with risk analysis, predictive effects, and an alert and notification system.

Django-based PPE Detector for High-Risk Industries, *LIET HACKTRAID 2.0 (Winner)* 02/2026 – 03/2026

- Built a real-time PPE (Personal Protective Equipment) detection system in Django with a fine system and tracking, with separate faculty and admin roles.

ZestVerse 10/2025 – 11/2025

- Created a progressive web app (PWA) for STEM learning among rural students through game-based modules and quizzes.
- Added multilingual support and offline functionality for accessibility.

Ghoomakkads | Full-Stack Travel Networking Platform 09/2024 – 11/2024

- Engineered a full-stack platform that helps travelers move from digital interaction to real-world exploration.

Real-Time Face Detection System, *AI & ML summer internship* 06/2025 – 07/2025

- Developed a real-time face detection system using computer vision techniques during an AI & Machine Learning internship.

AYUSH – The Virtual Herbal Garden 04/2024 – 06/2024

- Created an intelligent recommendation engine that maps ailments to traditional herbal remedies.

AWARDS & CERTIFICATIONS

Winner, HACKTRAID 2.0, *LIET Vizianagaram* 01/2026

Finalist, National Level Hackathon Hacksagon 2.0, *IIIT Gwalior (IEEE Student Branch)* 12/2025

Second Prize, Paper Presentation, *NIST University*

Runner-Up, *Hackerena*

Certifications: AI/ML Basics to Advanced | Advanced C Programming
